
YOUR 60-DAY LEAP PLAN

How to Pack Up Your Life and Move to Thailand

The exact system I used — templated for your leap.

This is not a generic checklist. This is the actual operating system I built to move from Florida to Thailand in 60 days — while launching two businesses at the same time.

Inside you will find four tools: a phase-by-phase task plan, a week-by-week daily schedule, a financial dashboard with real numbers to adapt to your situation, and a 12-month runway calculator so you know exactly how long your money lasts.

The goal is not perfection. The goal is momentum.

Liz's Hard Lessons

- *Always require a deposit when renting your place. I planned to rent mine furnished — the tenant bailed six days before I left because he wouldn't put down a deposit. I wasn't having it. Everything went into storage. Get the deposit or find another tenant.*
- *Have a Plan B for your belongings before you need it. Storage is a monthly cost you will carry until you deal with it. Sell more than you think you need to.*
- *Get health insurance quotes before you leave, not after you arrive. International coverage averages \$100-200/month. Know the number before it surprises you.*
- *Budget a 20% buffer for unknowns. Luggage breaks. Visa fees cost more than listed. A motorbike needs a repair. It always happens.*
- *Have your banking sorted 30 days out. Open both Schwab and Wise before you leave — not the week before your flight.*

How long does your money last?

Take your Net Cash Available and divide by your Total Monthly Cost. That is your runway in months. Fill in this table to see it month by month. Add a Revenue column once you start earning — watch the math change.

Month 1 (Travel + Setup)	\$_____	\$_____	\$_____	\$_____

My number: \$40,978 net cash gave me 22 months of runway at \$1,838/month. Knowing that number is what made the leap feel possible instead of terrifying.

Five years taught me what actually matters.

I rebuilt. I came back stronger. And I would do every single bit of it again to get back to that feeling of being truly alive.

This plan is yours now. Use it. Adapt it. Make the leap.

Ready to take the leap?
